About Me

Computer Engineering graduate with hands-on experience in full-stack development and AI-driven applications. Experienced in developing mobile and web solutions, computer vision systems, and data-oriented applications using modern software technologies.

Education

Çankaya University | 2021-2026

Bachelor's Degree in Computer Engineering

Internship and Work Experience

SPORTS DIGITALE

Software Engineer Part-time | 03/2026 - Present

- Working on TÜBİTAK-funded real-world projects, contributing to frontend and backend development and improving core product functionalities.
- Developing and supporting AI solutions involving Computer Vision, Image Processing, Deep Learning, and LLM-based applications and integrations.

YAPAY ZEKA VE TEKNOLOJİ AKADEMİSİ

Trainee | 12/2025 - Present

- Selected as one of 1,500 participants in a Google Türkiye-supported AI program
- Developed AI-driven apps and built practical solutions through hackathons and team-based projects, improving problem-solving and collaboration skills

BLUESENSE AI

Intern | 04/2025 - 10/2025

- Contributed to the development of AI-based mobile applications
- Developed and integrated features for the Smart Beauty mobile app

E4E ELEKTRONİK MÜHENDİSLİK YAZILIM TASARIM LTD. ŞTİ.

Intern | 09/2024 - 10/2024

- Developed a digital diary desktop application with user-focused design and structured data management.

Projects

- AI Chef Smart Recipes:** AI-powered cooking app built with React Native, featuring dynamic recipe generation. [Project link](#)
- CNN-Based-Traffic-Analysis:** Developed a real-time vehicle detection and traffic analysis system using a custom-trained YOLO model. [Project link](#)
- Product Recommendation:** Real-time retail recommendation system using Spark, Kafka, and MongoDB. [Project link](#)
- Data Mining:** Machine learning project for predicting grain yield. [Project link](#)

Technical Skills

- Programming:** Python, C#, JavaScript, TypeScript, C++, SQL
- Frameworks/Libraries:** React Native, .NET, FastAPI, React, OpenCV, YOLO
- Tools/Platforms:** Git, Firebase, Linux, Azure DevOps
